Brief description of the Transnational cooperation:

1. Problems to be solved (justification of the need of the transnational cooperation)

Youth unemployment is a problem for the whole society all over Europe and for Härryda as a municipality. In a joint effort between the municipality, Swedavia (the owner of the airport Landvetter), local businesses and the local employment office this study will focus on the young inhabitants (15-24 yrs) with several obstacles to reach employment. The study focuses on those that are furthest away from a job, i.e. drop-outs, with a history of mental and/or physical illness, drug addiction, disabled etc and for whom the forecast for finding jobs are slim.

2. Objectives to be achieved

The study will focus on establishing work methods between the stakeholders in order to help individuals one or several steps closer to the long term objective; a job and a fulfilling work life. Ways to reach the goal/objectives are to enable work training, continued studies and/or find employment. Landvetter Airport lies within Härryda municipality. The airport has approx 100 businesses and with the owner Swedavia as one of the stakeholders in the project, one objective is to establish a good working relationship with businesses localised at the airport that are willing to offer work training for individuals within the target group.

3. Main transnational activities (as provisionally planned, to be confirmed with partners)

Identify other projects with similar experiences that we could bench mark and learn from. Establish contact with other pre studies/projects who also work with finding work training within the private sector.

4. Planned outputs, deliverables, results of TNC; expected outcomes (effects)

Our aim in the long run is to establish a working method focused on the target group that involves both the private and the public sector fitted for a smaller municipality such as Härryda (approx 36 000 inhabitants). The aim for this study is to produce a first draft for a working method that can take youth that need extra resources one or several steps closer to the labour market. Another aim is that by the end of 2014 we will have established a working relationship with other projects in at least one other memberstate, working with the same target group and towards similar goals.
